

## Important Customer Information - March 18<sup>th</sup>, 2009 Von Arx VA 30 SH Surface Preparation Machine

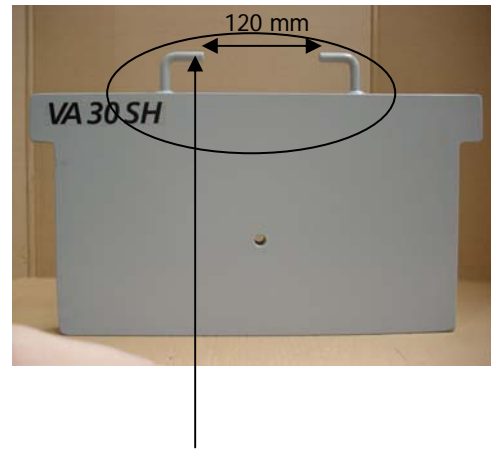

Due to safety reason we have made the following modification starting from March 18<sup>th</sup>, 2009 regarding the additional 30kg weight that comes with the Von Arx Surface Preparation machines VA 30 SH with Honda engine and electro motor. The handle shown in the pictures below has only to be used to put in place or remove the additional weight.

**Do not use the handle to lift the complete machine.  
Attention serious injury danger!**

If you want to lift the machine with a crane then you must use the dedicated lifting rings.

**Picture 1 Old Version until  
March 17th, 2009**

**Picture 2 New Version starting  
March 18th, 2009**

In case that you already have an additional weight (see picture 1), we kindly ask you to implement the modification to the handle according to the new version (see picture 2).

Should you have question then please do hesitate to contact our official Von Arx partners ([www.vonarx.com](http://www.vonarx.com)).
